<u>Class</u>	<u>Weekday</u>	<u>Start Date</u>	<u>Location</u>	<u>Time</u>
DMICO	Saturday & Sunday	August 16 <sup>th</sup> and 17 <sup>th</sup>	Forest Township FD	8:00AM

**Class Number 2025-2-25-0371 Course ID L06B**

This two-day course is designed to develop the decision-making skills needed by Company Officers (COs) to accomplish assigned tactics at structure fires. All activities and scenarios used in this course are based on structure fires. With the real possibility of being the first to arrive at an incident, the CO's initial decisions will have an impact throughout the entire incident. It is vital that COs be able to make good management decisions that have a favorable impact on the eventual outcome. In addition to a possible role as the initial Incident Commander, the CO may well be assigned a subordinate position within the Incident Command System organization. COs need to have a clear understanding of the system, the position that they are assigned to, and their role in the organization if they are to function effectively and help make the system work.
